Senior Full Stack Engineer

Languages: PHP, JavaScript, Bash, HTML, CSS, SQL (MySQL, Postgres), TypeScript, Ruby, Go

Frameworks: Drupal, Vue.js, React, React Native, Symfony, Ruby on Rails, Next.js, Ionic, Angular

DevOps: Docker, GitHub Actions, Apache, NGINX, Cypress, Behat

Methodologies: Agile, Kanban, Domain-driven Design, Theory of Constraints, Architectural Decision Records

Professional Experience

CivicActions, Remote | Senior Backend Drupal Engineer, September 2022 - October 2024

I worked on federal contracts (VA, CMS) utilizing Drupal, PHP, and JS to support content management needs in the government space including:

- Taking over and launching an upgrade of the Ionic and Angular-based Medicare mobile application under tight deadlines
- Collaborating across several development teams to improve Cypress automated testing on Jenkins CI while acting as a liaison between developers and the main QA team
- Speaking at three regional developer conferences on the topics of test automation and frontend development
- Improving accessibility scores of the web properties and gaining a web accessibility certification from edX
- Working on features across 15 Drupal sites and completing a Drupal-Drupal migration using the Migrate API
- Developing an accelerated publishing solution for the Veterans Administration using Decoupled Drupal with JSON:API and a Next/React frontend

University of Colorado, Remote | Senior Full Stack Engineer, January 2020 - September 2022

I led the development of an aging Drupal 7 website and its migration toward a decoupled architecture using PHP, node/JS/TS, Pantheon, Heroku, Salesforce, and GitHub:

- Maintained the online giving platform for the University of Colorado grossing \$5.4mill/year in donations
- Led the migration of the online giving platform to new infrastructure using JS/TS, PHP, and Domain-driven Design separating content management from payment processing
- Created Kanban process for the development team focusing on the Theory of Constraints and Scaled Agile
- Adopted Architectural Decision Records for change management and a chronology of development philosophies

Highlights for Children, Columbus, OH | Senior Developer, April 2019 - June 2019

I led the Drupal side of development on a team of six developers working with PHP, Drupal, Apache, Redis, and Vagrant to maintain and develop features for the Highlights family of companies' web presence:

- Maintained and developed small features for eight Drupal 7 sites across the Highlights family of companies
- Led the initial development of the Drupal 8 platform to migrate all Drupal 7 sites.

University of Colorado, Boulder, CO | Senior Developer, September 2015 - March 2019

I used Drupal, PHP, JavaScript, Vue.js, and Docker to work on various projects relating to the Web Express service. I led the development of new loosely-coupled services:

- A UI application built with Vue deploying code to 1000+ sites and creates reports for the Web Express service
- A CI workflow that runs functional tests and code linting across 50+ Cu Boulder repos on GitHub
- Development of shared local development environments via Vagrant, Docker, and native install scripts

Coplex, Remote | Drupal Developer, September 2014 - February 2015

I started working at Coplex as a remote contractor and quickly stepped up to lead the maintenance team as other full-time team members were put on sprints.

- Led the maintenance team of developers working on support contracts for 15 - 20 clients at a time
- Created proposals for support packages that could be sold to clients after the initial development phase ended, e.g. a performance or SEO package

Sogeti, Cincinnati, OH | Junior Consultant, September 2013 - September 2014

In my first web job, I pushed code to production after only two weeks and became the lead developer after a couple of months. It was a terribly anxious start to my career, but I proved I can learn quickly and deliver results on time.

- Led the development of ethicon.com, a Drupal 7 multi-site and main web property for Ethicon, a J&J company
- Managed an offshore team of four developers working through communication barriers and time differences to deliver features on time

Education

The Ohio State University, Columbus, OH | Bachelor of Science in Psychology, June 2009

- 3.79 GPA, 3.92 GPA in major
- Honors Thesis with a Research Distinction in Psychology
